SCHOOL BOARDS TO MEET HERE APRIL 8

Local Groups To Assemble With County Body To Discuss Program.

Members of the boards of Mar ion county schools will meet in a joint session with the Marior county board of education Wednes-day night. April 8, at Harding High school, D. T. Mills, county superintendent announced today.

The annual meeting, as specified by law, is for the purpose of dis-

by law, is for the purpose of discussing matters relating to operation of Marion county schools during the school year of 1930-37.

D. H. Sutton of Columbus, director of school finance of the
state department of cducation,
will speak. The new foundation
school program will be taken up
in order to discuss the various
points which each school district
is required to meet. The procedure
for 1936-37 will grow out of the
monting, Superintendent Mills said.
The question of redistricting the
county school system may also
form a part of the discussion, he
said.

Bright Passages.

History is heng written as flood waters sairl over a large section of the country Many of the passages are dark with disaster and durkert of all are those which record the fraility of human nature of people who could not realst the tempts tion to profit from the mixtry of their

Happily many heroic chapters of floor history whiten the blight of those durker pages Deeds of personal herolam and ex traordinary service were a ported in inpressive numbers. Most cheering is the quiet gallantry of millions of Americans who possibly never have seen a flood

From all over the country response to the Red Cross appeal for money and supplies to assist victims in stricken areas has been overwhelming Individuals and organizations have generously deluged collection stations with food clothing and money even to the extent that many stations report a surplus of netteles

One other aspect of the disaster is not entiresy without its encouraging side Millions of dollars' worth of private and Industrial property has been damaged or destroyed Already replacement orders are being given If the interests affected can find the means to finance topiacements a preded alimulus will be given the consumer and heavy goods industries Even disaater has compensations

Sweeping the Seas.

The sean will now be sale-for large and small battleships

After weary weaks of hagging jugging and some sincers exhorting delegates from the United States Great Britain and i rance met Wednesday in the Queen Annu drawing room of St. Immes palace and elened a six year mayal treaty

With deference to any good intentions that may have persisted as the delegates conded the realities of the altuation the spirit of the good queen must have grouned to see the wreck of another limitation conference Japanese delegates were rest ing on their dignity a sowhere and Itals and Germany remained aloof

Ostensibly of course pleases linva been given and received let when the smoke of the poker foom has cleared we find a limitation trent; that does not limit that the spats on the cards have merely been tentranged No numerical restrictions have been act but agreements have been trached in which size of ships and unliber of kuns are suppointed while there will be no building in the 9000 to 17500 ten classes

Securingly to be one that note of the signatory powers is embarriseed by future derelapments four escape charges have Leen included in the treaty Chiefly they provide for further adjustments in the ovent of the threat or actually of war or to meet the embarrassment of unethl cal compelltion from powers autside the

Once more the imitationists has a demonstrated their aming to steer the ships away from the rocks

Hitler Marks Time.

Henry footed German diplomata often have conshed into the political china shop and spread consternation among 1 are pean statesmen. At the moment though Relabsfuehier Illiler appears to be aware of the advantages of a conclinatory attitude He has reasserted Germany's desire to keep the peace and announced that after the plebisoits on Sunday he will release his new program designed to un ravel the European tangle

Some observers on the spot record their hellef in the sincertly of littlers ex pressed desire for peace. Let it seems fatuous to hope that the don win be subdued in spirit next week especially since the voting will probably give his policies an overwholming endorsement

Certain it is that the new program will insist upon the impossibility of carrying on any negotiations which are not based upon recognition of Germany a equality with other nations. Less likely it is that the chancellor will back up his professed pacific intentions with any substantial concessions. The world would be much more reassured for instance, if he offered to withdraw some of his troore from the reoccupied Rhineland or agreed to submit to the decision of the world court concerning the Franco-Russian pact instead of belligerently insisting that that pact has violated the Locarno treaty

Wellable commentators are agreed that Germany is not prepared to withstand the ravages of war. It remains to be seen whether her diplomate can trend softly enough among the wreckege to evert it

Brought Out by Tests with Kellogg's ALL-BRAN

Some vests ago there was considerable difference of opinion regarding the use of bran So to discover the actual facts of the case the Kellogg Company asked for a series of laboratory tests at lead-ing universities

Experimental studies on a group of healthy women showed that the continued use of bran was thor oughly satisfactory. Unlike cathartics, it did not lose its effect

Other independent tests on men ndicated that with certain people, the 'bulk in bran was more effective than that found in fruits and

hellogg a Alt-Bran supplied vita min B and from as well as plenty of bulk. This bulk in ALL-BRAN is gentle in action. It absorbs a great deal of moisture, and cleanees the intestinal tract
